Lavender Cushion Firm

CONNECTICUT MATTRESS

BY TOM WHOLLEY

KEY FEATURES

Super Stretch Tencel Fabric

A natural and breathable fabric that offers pressure relief at the surface of the mattress allowing the sleeper to benefit from the lift and reduced motion below.

AdvantaGel™ (gel-poly)

Intelligently designed infusion of gel and resilient foam offers a cooler sleep with luxurious comfort and durability.

iFusion™ Technology (gel-visco)

A combination of open cell memory foam and pressure relieving gel resulting in an optimal temperature sleeping surface while still conforming to every curve of your body.

GelResponse™ Latex

An intelligent eco-friendly combination of pressure relieving, breathable latex with gel beads to provide optimal sleeping surface temperature.

1000 Zoned Coil System with Foam Encasement

The 1000+ Perfect Contour Reaction (PCR) Coil System is comprised of over 600 conforming Active and 300 supportive Reaction coils working together to comfortably support every individual body shape and size to improve postural alignment and reduce motion disturbance.
